TWO-WAY E-PLANE KU-BAND WAVEGUIDE POWER DIVIDER, 0.5 DB INSERTION LOSS, -25 DB RETURN LOSS, 6-7 DB ISOLATION

Two-way E-plane Ku-band waveguide power divider for SAT/VSAT systems, with equal 1:2 anti-phase signal splitting, 0.5 dB insertion loss, -25 dB return loss, and 6-7 dB isolation.

This two way E-plane waveguide power divider is used in our sector assembly – OHPSA-KuH2 omni antenna

Parameter	Value
RF CHARACTERISTICS	
Operating Band	Ku-band
Power Division	1:2
Phase Division	Anti-phase
Insertion Loss	0.5 dB
Return Loss	-25 dB
Isolation	6-7 dB
DESIGN AND APPLICATION	
Divider Type	Two-way E-plane waveguide power divider
Power Capability	High power

Intended Systems	SAT and VSAT

Taking into consideration that we (ROKS PrJSC) are developer and system integrator, also do not stop on our technical growth and improvement, know that the view of all our devices and equipment including their technical parameters may be different from pictures presented on website and parameters listed on each device webpage.

Note! All details the customer has to confirm in advance during ordering and before payment. Those parameters that were not specified and / or were not agreed while ordering will be implemented as basic at the discretion of the manufacturer. Each of our customers has a 1.5 year warranty and 7 year aftersales support for the whole range of our products.
